## LAMERTON M. D. NO. 398 MEETING

A meeting of the council of the Municipal District of Lamerton, No. 398, was held in Alex on Saturday, September 13th, at one p.m.

All the members were present with D. M. Jewell in the chair.

Re ad fire S.E. 7-11-22: Mr. Jewell reported that a representative of the department of natural resources of the Canadian Pacific Railway visited the land referred to and made arrangements towards checking the spread of the fire. Mr. Jewell also reported that the other parties, whose land was also burning, had agreed to do everything in their power towards checking the fire.

The secretary was instructed to again write the Canadian National Railways, that unless immediate action was taken towards destroying the fire on the right-of-way from Bushaw south, the matter should be attended to by the council and charged to the railway.

The weed inspector, C. M. Yarwood, tendered his resignation to the council, on account of his having to be out of the district, and on motion of Councillor Olson, resignation was accepted.

An application from Wong Wing, Tees, for restaurant license at Tees, was recommended by the council.

An application for Mother's Allowance by Mrs. Lydia L. Carter, of Alex, was on motion of Councillor Sherburne, recommended.

Dr. McNabb, of Olive, and Dr. Sutherland, of Alex, were, on motion of Councillor Cassel, appointed medical officers for their respective districts.

On motion of Councillor Cassel, an application from Bernard W. Lawson, of Tees, for pool hall license, was recommended.

The meeting adjourned at 4 p.m.

### Signs With Detroit

C. C. Turner, who has made a great name for himself as a pitcher with Mirror Canadian National baseball team during the past season, has signed up with the Detroit team and will report next spring for a try-out. The contract came along last week, and after Mr. Turner's signature had been attached, it was duly witnessed by H. H. Croxton, manager of the Mirror team.

The many local admirers of the work of "Tiny" Turner while a member of the Mirror team, are confident that he will make good in the big league, and his career in faster company will be followed with a great deal of interest. He has the best wishes of not only all Mirrorites, but many baseball fans throughout the province.

### School Board Business

The regular meeting of the trustees of Mirror Consolidated School District, No. 31, was held in the secretary's office on Saturday evening, Sept. 13th, at eight o'clock.

All the members were present. The minutes of the previous meeting were read and approved. The following accounts were presented:

H. W. Parrucker.....	\$ 1.30
R. M. McDunnell.....	4.00
Stamps.....	14.00
Mirror Journal.....	28.50
L. L. Cassidy.....	18.00
Miss F. Annelsley.....	15.00

Estell-Hume: That accounts be paid.

Cassell-Estell: That secretary advertise for tenders for supply of coal at school.

Mr. and Mrs. J. P. Walters and family, have moved from the Kohler house to their new home, just south of the Canadian National roundhouse.

## SEMI-MONTHLY CROP REPORT

The department of agriculture (Alberta) has issued the following crop report, which is the eleventh for the season:

Harvesting operations are about 75 per cent. completed in the southern portions of Alberta, and threshing has commenced, but will not be general for a week. In the central and northern districts, where backward weather has delayed the ripening of the grain, the cutting of wheat is from 35 to 40 per cent. completed, with the threshing done. The weather in these districts during the past fortnight has been characterized by several warm sunny days which have ripened the wheat to the harvesting stage. The oat crop is still rather green, however, and its ripening has been further delayed by rain and cool weather. A very small percentage of the oat and barley crop is cut.

The total acreage in wheat in the province has been finally set at 6,033,491 acres as compared with 5,973,753 acres in 1923. The acreage in fall wheat is set at 3,712,252 as compared with 3,610,100 in 1923. The reason for the considerable reduction shown in the department believes that in past years too great a proportion of the wheat acreage has been estimated as in fall wheat. As a consequence, the estimate is being corrected this year, the difference being included in the spring wheat area.

It is estimated that about 12 per cent. of the total wheat acreage has suffered from the drought to such an extent that the crop will either not be harvested at all or the yield will be so light as to be scarcely a factor in the total yield or the province.

From reports received by the department and from fieldmen, it would appear that the average yield of wheat over the total area sown would not be more than 11 bushels to the acre, but owing to the large area which will either not be harvested at all or will show a very light yield, it is difficult to make an accurate estimate of the average yield. The final estimate will not be made until threshing operations have been about completed. In the more favored districts of the province, namely, the southern district, and some of the central and northern districts, the yield will be somewhat higher, and in a number of small areas reach as high as 30 bushels to the acre. Generally speaking, the yield of wheat is expected to yield much higher than on spring plowing or stubble land, the difference in many cases being from 8 to 12 bushels an acre. It is estimated that there are 2,332,039 acres of wheat on summer-fallowed land and new breaking, and 3,500,552 acres on spring plowing and stubble.

Where threshing has taken place, the wheat, even though of light yield, has been found to be of good quality. In some districts there will be a rather heavy dockage for weeds.

The oat crop is making good growth, but is late in many districts, and the acreage cut for greenfeed will be large. The acreage in oats for grain is estimated at 2,300,542 as compared with 2,220,540 in 1923, and the area for greenfeed is estimated at 1,463,393 acres compared with 1,861,033 acres last year. No estimate of the average yields of oats or other grains is being made at present.

Mrs. Emma Barnett, of Bush, Colo., arrived in Mirror on Saturday last, and will make her home with her sister, Mrs. W. M. Mitchell. Mrs. Barnett was a visitor here about four years ago.

Dr. R. A. McCormack, Dentist, will be at Alex, from Monday, Sept. 15th, to Wednesday, Sept. 17th, and at the Imperial hotel, Mirror, from Thursday, Sept. 18th, to Saturday, Sept. 20th, noon.

### From Gleichen To Mirror

A divine service was conducted in St. Monica's Church last Sunday afternoon by the new pastor, Rev. G. Moore Morgan, B.A., L.Th., who has been appointed by Bishop Pinkham, of Calgary, to take charge of St. Monica's Parish. In addition to Mirror, he will have also the Alex, Bushaw and Olive Parishes at his disposal. Mr. Morgan was rector at Stettler number of years ago, and for the past year has been at Gleichen. His short stay here over the week end, left the parishioners and adherents of the church, with a most favourable impression. Mr. and Mrs. Morgan and four children will take up their residence at Teftah, some time next month, and it is expected that they will be comfortably settled by the 15th.

### Hunters Out In Full Force

A big contingent of hunters went out early Monday morning, the opening day of duck shooting, but apparently no records were smashed in the bombardment that commenced at daybreak and ceased at the close of day. If one can judge from the stories told, the ducks showed exceedingly good sense for their own good, and were wary when shot, where the hunters were not been large.

### Matrimonial

The marriage of Jas. Carver, Jr., to Miss Maud Hanna, took place at Teftah on Tuesday, the 2nd of September.

Norman Sarles and Miss Ruth Southman, were married at Lacombe on Thursday, July 17th, 1924, and the news of the event was only heard by their many friends in Mirror last week.

To celebrate the occasion 35 friends motored to the home of the happy couple, in the Ellice district last Saturday evening and paid them a surprise visit. The company presented Mr. and Mrs. Sarles with a purse of money, accompanying it with their very best wishes. Mr. and Mrs. Sarles replied suitably.

### Lots Of Water

The well driller is a busy man at present, two wells having been drilled during the past ten days, and another is under way. Water was struck at E. E. Estell's place at 110 feet, and also at about the same depth on Sam Phelps's lot. W. G. Walker is having a well drilled at his residence, Lake street.

### Thought For The Future

Strolling at one of Western Canada's lake resorts for his first vacation in several years a business man spent his time in basking under the trees and watching the waves beat shyly on the beach. After several strenuous years of unrelenting work this tired business man wanted nothing but complete rest of body, mind and soul. And like a sensible being he went back to nature for it.

But as he lay under the trees and watched the water he soon became aware of great activity all about him. Squirrels and chipmunks ran and jumped among the trees and shrubs, while the water along shore and among the reeds was ruffled with the swimming and diving of numerous muskrats. These interesting little animals were not holidaying. They were intensely busy. While watching them, the tired business man began to study them more closely and found they were one and all engaged in collecting and storing up food for the winter, and doing so systematically and with the greatest industry.

The man began to think. He realized that nature had endowed his little world with water friends with a sure instinct which told them that although the sun shone and warm breezes were blowing, a time was surely coming when the trees would be bare of leaves, the ground covered under a mantle of snow, and the waters locked fast under a thick layer of ice when it would no longer be possible for Mr. and Mrs. Squirrel to collect food, or for Mr. Muskrat to build himself a house. So they were busy preparing for the future.

And the man, as he lay there, began to think of his own future. He began to compare his life and activities during the past few years with those of these little wild-life creatures. God and nature had endowed him with the same instincts of preparing for the future, but he had also been gifted with the power to think, to plan, to organize. He had been given a soul which would live on after his body was dead. The squirrels and muskrats were living an absolutely natural life and would pass on to their offspring their instincts of self-preservation and in a year their young would stand for themselves.

But what of the man? Looking back on his past year's hard work he realized that in many respects he lived an artificial life which did not tend towards maintaining and developing that natural physical fitness and strength of body enjoyed by the animals. He realized that his children could not be taught to shift for themselves after the lapse of a single year. He was impressed with the fact that, unlike these little wild-life animals, he had to prepare not merely for a future consisting of a few winter months, but he had to look forward into the years and make arrangements for his old age and for his children until they had grown up and could care for themselves. His own health, the health of his children, their education and training for life, and the making of necessary provision for his old age, his children's death or death overtook him, suddenly became vitally important and practical questions.

As a result of this at first idle, but later serious thinking, the man commenced to take stock of himself, of his business activities, of plans made for the future. Was he carrying sufficient life insurance to provide for his wife and to educate his children if death should suddenly overtake him? Had he provided himself and family sufficiently in the way of cash and accident insurance? Was he even showing the same foresight as the squirrels and muskrats in making ample preparation against all vicissitudes the future might entail?

Further, did his plan of life consist of nothing more than business, making money, and spending it for pleasure? Surely, with all the keenest instincts, responsibility, and a countless soul which man enjoyed over the animal creation, a great responsibility rested on him to plan for the future. He was not merely a creature of the moment, but a being who lived and moved and planned for the future. Surely a great responsibility rested on him to do something to better conditions in his home town, province and country. There were crippled children to be given a fair chance in life; there were widows and orphans for whom others had neglected, or through adverse circumstances had been unable to make, necessary provision; there were ex-soldiers and their families who had made great sacrifices for him and his country to whom he had to admit he owed a debt which he could never fully discharge.

This man came to realize that his life, after all, was selfish and narrow, even thoughtless. He came to understand that the selfishness and narrowness was not intentional, but was the outcome of his own failure. It is not true that this lack of taking thought lies at the bottom of most of the ills and sorrows from which the world of mankind suffers.

### Forging Another Link

Start Work on Port Arthur to Advance in Knowledge Results in Lower Mortality Rate

Actual construction work on the Port-Arthur-Winnipeg link of the trans-Canada auto highway was commenced recently. A party of men have left Port Arthur for Shagbush under the direction of Road Engineer Meador, of the Ontario Northern Development Branch. Surveys for this road were completed some time ago. Mr. Meador also announces that the Port-Arthur-Niagara link of the highway is to be widened, and that the work on this link will be completed in time. Wooden bridges on the International Highway between Port Arthur and Duluth are to be replaced by concrete structures. Seventy miles of new road and bridge construction this summer by the Ontario Government in this district alone.

### No Ticket Available

There being a Shakespearean repertoire company in town, a business man said to his secretary: "Get me down to the Black Theatre and get me a ticket for 'Twelfth Night'." Later the secretary reported: "I couldn't get tickets for the night you specified." The company will only be in town six evenings."—Business Transcript.

No man is truly wise who has never been up against at least one bunko game.

## CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil. Purge, soothe, and soothe. It is the only medicine for infants and children. It is the only medicine for infants and children. It is the only medicine for infants and children.

### Man's Progress

Advances in Knowledge Results in Lower Mortality Rate

No stone thrown in the way of progress is subject to so high a rate of infant mortality as were the families of Anglo-Saxons. The rate of infant mortality was more effective when it is kept within a narrower range of time. The dwellers in the worst slums of today run smaller risks of illness and premature death than well-to-do middle class folk did not so long ago. It is facts such as this that confound those who deny the reality of progress. Health and life are the most precious treasures of the State, and when the dark cloud of disease is lifted and man's useful years are greatly prolonged, who can say with reason that improvement is a delusion and good government a myth?—London Daily Chronicle.

Ten years ago grapefruit was almost unknown in Europe. Now it is coming into favor as a breakfast delicacy in England. The British now import large quantities from the United States, and brokers in London report that the demand is steadily increasing.

The brains of an ant is about the size of the head of a dancing needle. These insects live from eight to ten years as a general rule. Although specimens in captivity have been known to reach the age of fifteen.

## CHILDREN CRY FOR "CASTORIA"

### German Predicts

### Bicycle Aeroplanes

Results Achieved By Gliders Give Encouragement to Idea

Aeroplanes that are driven not by engines but by muscular power, in much the same way as a bicycle, will become a reality in the near future in the opinion of a German scientist. The discovery that aeroplanes could be driven by gasoline temporarily halted experiments in flying machines and gliders, but the results achieved by gliders, he declares, give new encouragement to the idea. The planes will have to be built extremely light, although at the same time strong enough to stand the strain, and the legs will have to be the driving force as the hands will be necessary for guiding. The scientist pictures the machine as bi-plane, in the centre of which the pilot sits, a structure looking much like a bicycle, and drives a propeller in the rear.

### Pursued By Cameramen

Says Royalty Must Hate the Man Who Takes Pictures of the Royal Family

The press is in danger of becoming a public nuisance, because of the scandalous way in which the Prince of Wales has been pursued almost everywhere by his own bachelors by cameramen and interviewers. "Odeon" writes in the weekly magazine, just as the rest of the world. "The Prince," the writer declares, "is a public character, but he is entitled to his privacy and to his private friendships, just as the rest of us are. This applies also to the King and Queen and Princess Mary, who can hardly move outdoors without finding themselves in the next day's picture papers. On official functions, this is well enough, but when private visits are concerned the thing is an outrage. Royalty is proverbially hard-suffering, but it must hate the man who invents the portable camera which drives women from the scene."

Mother Grieved Worm Extinction Work is being done to prevent the worm from doing injury to the child, because its action, while fully effective, is mild.

### Are Returning Home

Large Inflection of Canadians From the United States

What local immigration officials believe to be the beginning of a large influx of Canadians from the United States, is seen in the monthly figures issued by the Department of Immigration, which show that last month 831 persons entered Canada at the port of Windsor, of that number 419 were Canadians returning home after years of sojourning in the United States. There were 256 persons refused admission.

At Walkerville, of 55 persons admitted, 45 were Canadians returning from various parts of the United States. The majority of them, however, being from Detroit. There were 131 rejections. The general trade outlook across the line is believed responsible for the swinging back of so many of those who left their own land for work in Uncle Sam's country.

### WHEN FOOD FAILS

Defective Digestion is the Cause and There are Many Follows

There are many people who do not get the proper nourishment from the food they eat. Because their digestion is defective. Food that lies undigested in the stomach is not only wasted, but will ferment and poison your system. Flatulence and souring of the blood follow. And unless you are careful you will become a chronic dyspeptic. By toning up the stomach to do the work nature intended it will remove the cause of the trouble. Nothing will more promptly restore the digestive organs than good pure blood. Stomach, nerves and glands all depend on the blood, and when it gets thin and watery they are at once weakened. It is because of their action in building up and enriching the blood that Dr. Williams' Pink Pills have proved themselves so valuable. The digestive system where ordinary medicines have failed. The new rich blood which they tone up the digestive organs; they purify the blood and you are able to eat with comfort and get full nourishment from your food.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail \$5.00 a box from Dr. Williams' Medicine Co., Brockton, Mass.

### Paris a City of Beards

"Paris was a city of beards," says a New Yorker back from the French capital, "of which there were 40 shapes, more or less, according to profession, from the cook type to the judge type. Every barber had one, many, seldom used, and a battery of curling irons to put waves in the beard. Hair, eyes, brilliancy and perfume were used under all self-respecting French hats."

Clerical work, stenography and office work in general are unpopular with women stand a good chance of marriage; records show, while school teaching is unsatisfactory in this respect.

Minard's Liniment for Sprains and Bruises

### Has Hopes

### For The World

Earl of Balfour An Ardent Advocate Of The League

The Earl of Balfour, in a recent debate in the House of Lords on the question of disarmament professed himself as having some hope for the future.

The League of Nations had been in existence, he said, only a very short time, and yet it had produced a spirit among nations which only to exist in the world. No one could seriously doubt that what had happened and yet it was an institution which the world could readily spare. As the spirit which animated the League went on in some respects it might be powerful or might run beyond the possibilities but it undoubtedly was something new in the world. No one could seriously doubt that what had happened and yet it was an institution which the world could readily spare. As the spirit which animated the League went on in some respects it might be powerful or might run beyond the possibilities but it undoubtedly was something new in the world. No one could seriously doubt that what had happened and yet it was an institution which the world could readily spare. As the spirit which animated the League went on in some respects it might be powerful or might run beyond the possibilities but it undoubtedly was something new in the world. No one could seriously doubt that what had happened and yet it was an institution which the world could readily spare. ## LYND GEORGE CONDEMNS PACT WITH RUSSIANS

Peterborough, Wales—In a most important declaration on the Anglo-Russian treaty made in a speech here, Premier Lloyd George said the treaty was a "bait and switch" which had been "hastily patched up" at the end of the recent session of Parliament because "Premier MacDonald had held up" by the Socialist gamblers of his own party.

The former premier said that it was an act of criminal recklessness at such a time to guarantee huge sums of money to be spent in another country by a Government whose principles were predatory.

Mr. Lloyd George said he recognized that in voting against the guarantee the Liberals would be challenging the Government on a major issue which was as integral part of the Government's programme, but if the Liberals shirked their duty and they would forfeit the nation's confidence and respect. He obviously assumed that the Liberals will join the Conservatives in defeating the Government on the Anglo-Russian treaty when it comes before Parliament for ratification, as the Government will be obliged to treat the vote as one of no-confidence and be compelled to resign.

Referring to the Irish boundary question, Mr. Lloyd George said that Lord Birkenhead's letter to the Earl of Balfour, interpreting the Irish treaty as providing for the Government to settle on small frontiers, rather than to consider transferring large sections of Ulster to the Irish Free State, seemed to contain the only responsible interpretation of the boundary clause of the Irish treaty, and he asked the House to take note of it.

## Promises Naval Assistance

Britain Ready to Use Navy to Secure World Peace

Geneva.—The representatives of the Little Entente have been informed that Great Britain will not only stand ready to extend economic penalties against any aggressor states, but will, also, subscribe to a general agreement to afford naval assistance to maintain world peace. It was stated on good authority here.

This assurance has created a favorable impression among the smaller European states and has strengthened the idea already prevalent in league circles that England and France are closer than some people think to a settlement of the problem of security which the French leader has committed any acceptance of compulsory arbitration.

## Radio Broadcasting in Russia

New Permitted By Soviet Government Under Certain Restrictions

Moscow.—Radio broadcasting was introduced to the Russian people for the first time when the Council of people's commissars issued a decree permitting the manufacture and use under the supervision of the state of posts and telegraphs of commercial and home-made receiving sets. The public is permitted to receive only general broadcasting matter sent up by Government stations, including informative speeches, reports, concerts, weather bulletins and time signals, but it is forbidden to intercept or to use for private purposes official Government matter or information intended for the press. It also is restricted from picking up matter disseminated by foreign wireless stations.

Will Subscribe to German Loan

Paris.—The main says in underpins that, in deference to the arguments made by Andre Bonin, the American Secretary of the Treasury. In his recent talks with Premier Herriot, Finance Minister Clementel and M. Ribbentrop, Governor of the Bank of France, France will subscribe 40,000,000 gold marks of the loan to Germany under the Dawes plan.

Premier King's Western Tour

Ottawa, Ont.—The tentative date of the commencement of Premier King's western tour is set for Sept. 25, when he will leave Ottawa for Fort William. The first speech to be delivered will be at the head of the lakes, probably Oct. 1, and from there the Premier will proceed to Winnipeg, where he will speak, it is expected, Saturday.

Spill Speed Construction

Saskatoon, Sask.—The completion of the C.P.R. Tisdale-Nipawin branch is to be expedited by employment of what is believed to be the largest and most efficient track-laying machine in the continent, which arrived in Tisdale recently. The machine is stated to be able to lay three miles of track a day.

W. N. U. 1242

## Put Ban On Sale Of Extracts To Indians

Edmonton.—The immense sale in Indian and half-breed in the north of the province during the past few years of various extracts which contain a large percentage of alcohol, but which are not in the past illegal, is given by the Liquor Control Board as the underlying reason for the order, which recently passed which prohibits the future sale of these extracts, except through the Government vendors. The sale of these extracts has been a constant source of complaint by Indian Agents and the Provincial Police, and it is stated that thousands of dollars' worth of these extracts have been taken to the north for sale every season.

## Economic Conference Held At Regina

Premier Dunning States Activities of Province To Be Discussed

Bureau Will Be Extended

Regina, Sask.—Rejecting as impracticable the debt adjustment scheme presented to the Saskatchewan Government by the farmers' organizations in the province recently, Premier Dunning, at the economic conference here, the Government's intention of extending the activities of the Provincial Debt Adjustment Bureau.

Representatives of the bureau will be stationed in the sheriff's office in each of the 23 judicial districts of the province to act as agents and advisers to hard-pressed farmers and to assist them in their difficulties. The bureau's activities will have been before upon creditors, the necessity in certain cases of adopting a pending scheme with a view to making mutual settlements of a permanent character.

## Constructing Vessels For Coastal Service

Water Steamers Will Be Put On Vancouver-Seattle Run

Montreal.—Captain J. W. Troup, manager of the British Columbia coasting service of the Canadian Pacific Railway, has left for Glasgow, where he expects to be present at the launching of the Princess Kathleen, the first of the new water steamers for the Vancouver, Victoria, Seattle run and other construction.

The Princess Kathleen will be the largest and fastest steamers run in Puget Sound waters with a speed of 21 knots and a gross tonnage of approximately 5,500 tons.

The Princess Kathleen will be delivered to the owner, December 27. The Princess Marguerite follows at an interval of 60 days.

## Has Not Replied To Canada's Offer

Proposed Trade Agreement With Australia Is Still Unsettled

Ottawa, Ont.—Hon. J. A. Robb, Acting Minister of Finance, said that the Canadian method of marketing fruit in Canada, which is a method of marketing fruit. The ministry recently established an apple packing station in Cambridge.

Relief For Virgin Isles

Washington.—The American Red Cross has contributed \$25,000 to Captain Philip Williams, Governor of the Virgin Islands, which recently were hit by a hurricane. Captain Williams reported that between 300 and 400 families have lost their homes.

Ancient Church Wrecked

Palermo, Italy.—Almost the entire roof of one of the oldest churches of the seventeenth century Church of San Domenico has fallen in, destroying inside the church, the tribune in the nave. No one was injured.

German Prisoners Released

London.—The German prisoners imprisoned by the French and Belgian authorities in the Ruhr have thus far been released under the amnesty clause of the London agreement.

## Must Be Agricultural Workers

Jews Entering Canada Will Be Subject To Immigration Restrictions

Ottawa.—Jewish refugees from Russia entering into Canada will be subject to the same restrictions as now apply under the law to all immigrants, namely, that they must qualify as agricultural workers and give reasonable assurance that they intend to remain in the rural districts of Canada. This was the decision of the Minister of Immigration, Hon. J. A. Robb, who received a delegation of steamship men which asked for a ruling on the status under the Canadian Immigration law, of Hebrew citizens of Russia now resident in Russia or the Near East. Many of these, it is understood, would enter into Canada, but were unable to qualify as agricultural workers.

In deciding to enlarge the field of immigration in this class, it is presumed that the immigration department has in mind and pledges itself to the United States Government that everything will be done at Canadian ports to prevent the immigration of Europeans who seek to use Canada as a gateway to the United States as a means of evading the restrictions of that country's immigration law.

## CANADA AND U. S. TO FIGHT RUST MENACE

Winnipeg.—Cooperation of United States and Canadian expert agriculturists in the war on the rust menace is assured following a two-day's conference here, at which a Canadian national co-operation was appointed and a tentative programme drawn up. As a result of the meetings here, it is understood that a similar campaign will be held either in Wisconsin or North Dakota in the near future.

Increased Federal Government aid and closer co-operation of provincial organizations in the campaign of rust eradication will be another important result of the meeting. The prosecution of the campaign, Hon. Mr. McRae, Dominion Minister of Agriculture, said, would be able to get an appropriation of \$50,000 for the work, as against the \$25,000 set aside for it last year. Representatives of Western Canadian universities also pledged the support of their scientific staffs in the work and Dr. H. C. Fries, Chairman of the Dominion Research Council, intimated that some of the funds of the council might be put at the disposal of the experts.

"Why cannot economic and fiscal questions be discussed on a table with equal frankness and the same amiable spirit as the mutual problem of rust control?" asked Hon. F. M. McRae, Provincial Treasurer, speaking at a conference here. He would be "delighted" at the wholehearted cooperation of the Central States and deplored the fact that fiscal conditions, of which those in the United States have been complaining, have not been accepted in a similar manner.

Prof. H. L. Bailey, of the University of North Dakota, suggested introducing nurseries for rust hosts, excluding barberry and buckthorn, of which the rust-carrying nature was already known.

Prof. Bailey was supported by several other speakers. It was concluded that such nurseries would afford better opportunity to study the problem under field conditions and greenhouse conditions.

Approves Empire Conference

Bloomington South Africa.—J. H. Thomas, British Colonial Secretary, said that while the invitation sent by the Imperial Government to the South African Government to participate in an Empire conference in London has not been accepted, he was glad to state that during a personal interview he had been assured that the British Government would accept the invitation and South Africa would be represented.

Saskatchewan Pool Wharf For U. S.

Regina, Sask.—Arrangements are being made to handle Saskatchewan wheat and flour in a wharf at the port of Regina. It was announced following a meeting of the directors.

Particular reference, it was stated, is being paid to Scottie and Whittall, Montana, and Harry Marsh, Herschel, Sask., a member of the executive of the pool organization, now south of the line carrying on negotiations.

Prominent Personages Coming

Montreal.—Dr. J. D. McRae, M.P. for Kinross and Western Perth in the British House, and Mrs. Philip McRae, wife of the Hon. J. A. Robb, the Exchequer, have accepted invitations to visit this fall, under the auspices of the National Council of Education.

## Cancels Trip To Pole

Arctic Explorer, Who Filled a Voluntary

ROALD AMUNDSEN Arctic explorer, who filled a voluntary position in bankruptcy, has definitely cancelled his projected arctic trip to the North Pole, and has requested that this matter be placed under a public trustee, so that he can get his financial difficulties straightened out in full view of the public. He considers himself solvent.

## Chicago Slayings Sentenced

Get Life Imprisonment For Murder Of

Chicago.—Sixty-five days from the afternoon they kidnapped Bobbie Frank from the street, killed him, threw and on his face to destroy his features, and thrust his bloodied hands into a swamp culvert, Nathan Leopold, Jr., and Richard Loeb, self-styled "super-intellectuals" and heirs to many millions, were packing up their prison belongings preparatory to the journey to the Northern Illinois penitentiary at Joliet, where, unless the pardon and parole board interfere, or they escape, they will remain for approximately 23 years.

They were sentenced to life imprisonment on the murder charge, and to 99 years on the kidnapping charge, and Judge Caverly advised that they were not to be eligible for parole. Attorneys differ on the number of years that must elapse before they can be paroled. Some hold that they can regain their liberty in about 25 years, but Clarence Barrow, chief of counsel for the defense, argues that they must spend 33 years and some months in the penitentiary.

## Spanish Nobility Coming

Party Will Make Tour of Canada This Month

Montreal.—The Duke of Alca, 17th of that name and tenth Duke of Berwick in the British nobility; the Duchess of Alca, the Duke and Duchess de Beauvilliers, the Marquis de Viana, master of the horse to the crown of Spain, and the Marquis de Cagales, personal friends of the King of Spain, with several friends, are about to visit Canada. It was learned here that they will leave the United States on the 14th for Niagara Falls, where they will proceed to Toronto, Banff, Lake Louise and other points in the West, before their final tour of the Canadian Rockies enroute.

From Victoria they will go to Seattle, where they will make an extended tour of the United States.

## Business Improving In Ruhr

Restrictions Under Franco-Belgian

Occupation Have Been Removed Dortmund.—With the removal of the customs barrier and the other economic restrictions which had been imposed by the Franco-Belgian occupational authorities in the Ruhr area, marked improvement in business activity is being noted in the region.

A resumption of normal railway traffic is viewed as one of the factors which will result from the abolition of the hitherto burdensome ordinances. The mines and smelters are looking forward to a steady supply of rolling stock of which there has been a chronic shortage due to the existing road state.

## Australian Citizens Drift

London.—The annual military training of the citizens force at Liverpool, England, yesterday afternoon, being attended by 3,000 men, according to the Morning Post's Sydney correspondent. The men are undergoing a course of field work. Last year, while in training, they concentrated on musketry instruction.

Unemployment In Britain

London.—For the eighth successive week the unemployment returns for Great Britain showed an increase last week, namely, 13,662. In two months the increase in the number of unemployed has been 137,000 and the total now is 1,162,000.

## Delegates At Geneva Are Striving For Peace

Geneva.—The Governments of thirteen countries have decided that it is more important to have their foreign ministers at Geneva following the discussions on obligatory arbitration, security and disarmament than to have them stay at home and conduct the general routine of their foreign affairs. These thirteen ministers are sitting side by side, engaged in the hardest kind of committee work in settling committee rooms, trying to find a happy hand in the effort to put peace in Europe on a solid foundation. In addition to the foreign ministers there are some ministers who hold other portfolios for the Governments of various countries and some literary or former statesmen, who have been promoters or foreign ministers during their careers.

## Insurgents Fighting Soviets

Georgian Republic, Demanding Recognition Of Their Independence

Tbilisi.—The struggle between the insurgents and the Soviet forces in the Georgian Republic is the latest reports reaching here. The insurgents hold the principal Transcaucasian railway, which runs through the Caucasus and some literary or former statesmen, who have been promoters or foreign ministers during their careers.

Marital Law has been proclaimed throughout the Caucasus and Soviet troops are being hurried to Georgia.

Georgia was a part of the old Russian Empire, but refused to recognize the Bolshevik when the latter overthrew the Czar. The Georgian Government formed a separate state, proclaiming their independence in May, 1918, and receiving their due recognition by the allies in 1921.

Later in 1921, a revolution occurred and a Soviet Government was set up. Georgia was one of the regions demanding recognition of their independence from the Soviet regime. Their president, who is now in Paris, has asked the Government of the League of Nations to stop the bloodshed and has offered to submit the independence issue to arbitration.

## READY TO SUBMIT ALL DISPUTES TO ARBITRATION

Vancouver Harvesters

Geneva.—Great Britain stands by the League covenant, which provides for the military and naval assistance by the signatories to preserve peace. This declaration was made by Lord Parmoor, representing the British Government, after the disarmament commission debate on arbitration, security and disarmament.

In a statement to representatives of the press of the world, Lord Parmoor affirmed that Great Britain meant what she said when, through the lips of her Prime Minister, Hon. Stanley Baldwin, she declared her readiness to submit all disputes to arbitration. He added that the words "all disputes" included those usually characterized questions affecting vital interests and national honor.

The British statesman qualified his statement by remarking that the terms "vital interests" and "national honor" were exceedingly vague, but went on to say that a war must be found to handle every possible cause of conflict between nations.

The British statesman concluded that, after all, the League covenant covered pretty nearly everything, and it was only necessary to clarify certain points, and perhaps generally strengthen the covenant.

Lord Parmoor's statement caused great pleasure among the French delegates, who had created the impression, as did his remarks, before the commission, that when the time comes the British Government will present detailed resolutions on arbitration, security and disarmament.

## Rains Have Spoiled Crops In France

Quantity and Quality Have Both Been Greatly Affected

Paris.—The troops states that the incessant rains of the past two months have seriously affected the yield of grain, as well as to the quantity and quality. The deficiency will have to be made good by purchases abroad, the French Government has announced, and will have the usual effect upon the French exchange.

It was estimated a few weeks ago, says The Times, that the French purchases of foreign cereals the coming year would not exceed 10,000,000 bushels, or equal to 224.6 per cent. of the crop. It is not certain that this estimate will be largely exceeded. The wheat trade here believes that twice this quantity will have to be bought abroad.

## GRAIN EXCHANGE HEAD COMMENTS ON WHEAT POOL

Winnipeg.—In his retiring address, President J. H. Richardson, at the annual meeting of the Grain Exchange, dealing with the pool system of marketing wheat, declared that it was difficult to make exact comparisons with the success of the Alberta Pool and marketing through the Grain Exchange.

"We can say with some certainty that the announcements made by the pool, however, have clearly indicated a desire to try to show the operations in a most favorable light, but have not supplied all the facts necessary for a judgment on the results," Mr. Richardson said.

"I must confess," he added, "that we have so far seen nothing to justify the claim that the pool method of marketing has given the Alberta producers any better price than established by the market."

Continuing, Mr. Richardson asserted that the grain trade not only recognized the right of the farmer to carry out his experiment, but had placed its elevators, staffs and experience at the disposal of the pool at lower rates than otherwise could have been obtained. Similar experiments will be made this year in Saskatchewan and Manitoba and it will not be very long until the wisest of teachers, experience, will have decided the issue," he said.

"While we are keeping an open mind on the subject, we are not yet convinced that this innovation is a step along the road of sound economic procedure."

Referring to the feature of Government regulation of wheat marketing through the Board of Grain Commissioners, Mr. Richardson said:

"We do not think it will be an easy matter to extend the regulation of the grain trade to other commodities, without a conflict between such regulations and operation of the farmers' co-operative companies. We are at present of the opinion that it is not wise to devise legislation controlling an international business, and we are inclined to think that since farmers themselves have created agencies of their own for handling grain, our legislators would be well advised to move with caution."

## Cost City Supplied Many Workers

Vancouver.—Vancouver supplied more harvesters for the handling of the crop on the prairies this fall than all other points in British Columbia combined.

The Government bureau supplied 3,500 men, of whom 1,500 were from total, 5,243 men went from Vancouver, Victoria was second, with 568. The statistics reveal that the majority of the British Columbia men went to Saskatchewan. The figures show that of the 5,264 men sent, 3,234 were dispatched to the United States, 1,884 to Alberta, and 25 to Manitoba.

## Oppose Burying Unknown Soldier

Berlin.—On the tenth anniversary of the outbreak of the world war, a movement was launched for the erection of a national monument in Berlin to the memory of the soldiers who died as a result of the war.

There have been several proposals here to bury an unknown soldier, with proper ceremonies on behalf of the unknowns, but the Government opposed the idea on the ground that to do so would be following too closely in the footsteps of the allied nations, where the custom originated.

## Pays Big Damages

Vancouver.—One of the biggest damage awards in the British Columbia courts for many years has been settled by the successful defendant on the plaintiff. The award is in the judgment and all costs. The defendant is the Comox Logging and Railway Company and the plaintiff is Mrs. M. J. Miller, a settler who suffered loss of property, personal injuries and, in one case, a life, through a forest fire in 1922.

## Hindoo Prefer German Colleges

Harvard.—A conspicuous increase in the number of Hindoo students in German universities is reported since the end of the World War. Anti-British feeling, said to exist among the young Indians, is given as the reason for their preference for German educational institutions.

## To Oust The Foreigner

Victoria, B.C.—That the imposition of the 100 per cent. luxury tax by the Government would be a direct effort to oust the foreigner from Japan, was the opinion expressed by Stewart Paterson, a journalist, who has returned from a trip of the Far East.

## Mirror and the District

G. W. Angus left on Tuesday afternoon for a two weeks' vacation at the Coast.

Miss Margaret McLean, who is attending Alberta College, Edmonton, was home for Sunday.

Miss Winnie Oldring, local telephone agent, has been very ill for the past week, first with tonsillitis, followed by quinsy.

The Buffalo Lake Farmers' Co-operative Marketing Association expect to ship ten cars of cattle and hogs from Mirror and the surrounding towns this week.

G. H. Darlow, of Alx, who has been operating the local picture show for the past year or so, has leased the Grand theatre, and will continue the shows as in the past.

Norman Spiece is travelling around these days in a Ford touring car, having traded his Chevrolet for the new car, and a couple of other "Lizies" of recent vintage. Miss Grace and J. G. Russell accompanied Mr. Spiece to Stettler last Friday and assisted in bringing the car to Mirror—that is, two of them; one of the Ford is a pilot against leaving home, and is parked in the neighborhood of Stettler.

Miss Florence Annesley left last Saturday for Prince Rupert, where she will reside with an uncle and aunt, and at the same time take up her studies in Grade XI. She was accompanied as far as Edmonton by her father, John Annesley. To show their esteem for Florence, a party of 45 young people met at the home of her parents on Thursday evening of last week, and in the course of the evening's entertainment, she was presented with a fountain pen. The gift was made by boy friends, and was accompanied by the good wishes of the dancers by all the guests present. The evening was pleasantly spent in cards and dancing, followed by a tasty lunch.

J. Matuk, of Louisa, and Nick Kubluk, of Delburne, were visitors in Mirror on Sunday.

Mr. and Mrs. F. B. Jaynes arrived in Mirror on Saturday afternoon for a month's stay at Golden, B.C.

S. A. York, of Edmonton, is here on a visit, looking after his farming interests in the South Buffalo Lake district.

A SALE of Home Cooking will be held by the Mirror Women's Institute in the library building on Saturday afternoon, September 20th. Afternoon tea will also be served, commencing at three o'clock.

Mrs. Frank Tulloch received word on Monday of the very serious illness of Mrs. Gordon Tulloch, who is now in the hospital at Lloydminster. Mrs. Tulloch had not fully recovered from an operation performed last spring, when she was compelled to enter the hospital for the second time. Miss Grace Tulloch will leave on Saturday next for Dowburn, to look after Mrs. Tulloch's children.

On Friday evening, September 19th, the spacious and comfortable home of Mr. and Mrs. Oscar Johnson, Lakebend district, was the scene of a very happy party, when about 75 residents of the district and some from Mirror, gathered on a general invitation of the host and hostess. The evening was most enjoyably spent in cards and dancing, good music being furnished by local musicians Wilbur Mitchell, acted as manager and adoped things aluminia, and the party was a very successful one. A lunch, eaten in the morning. A lunch, eaten in the morning. A lunch, eaten in the morning.

MY GARDEN

If this could be read as a prose poem it might readily be taken for a bit of spring poetry a bit belated. Along about the time the frost was out of the ground, I started in to make my garden. I was in a new town and didn't understand much about the soil. I am rather old fashioned in some of my ways and like to dig in a garden rather than have it ploughed. Besides there were two Manitoba Maple bushes near the fence and I decided that it would never do to have great, rough horses anywhere near them. Then, as I have already suggested, I like in the spring to dig, and dig and dig. With me, digging takes the place of loafing, or chewing tobacco or whittling.

I was nicely started and at the end of about an hour along came a man who lives on the next block. This is one of the few disadvantages in being a man when one moves into a new town. Every man one meets feels bound to make one's acquaintance. With the women it is different. They may pick and choose and take their time about it. They may get their breath and gather a bit of information as to the best families, etc.

However the first man who came along was inexpressibly shocked at seeing me dig in such a dry season. Certainly, the ground was like ashes. Said he, "You should just loosen the ground along the seed rows, you will lose all the moisture, evaporation, don't you know?" I thought that, perhaps after all, a native might know more about the reaction of the soil to the climate than a stranger. I stopped digging at once.

Man number two came along, lived next man number one. Said he, "You should have that ground plowed; the man who was here before you had it done and it was the best garden in town." I answered "really," but decided not to order the plough.

I received at least fourteen different brands of advice regarding my garden and the correct procedure followed locally. I labored long and heavily. I spent more money in packages of seed than I dared let my wife know about. I purchased several implements required in the pursuit of my hobby. The results to date are as follows:

The two bushes of which I was so careful proved to be winter killed. Where I dug the ground I have nothing. Where I just loosened the soil I have a splendid crop of pigweed, several kinds of beans managed to break through to be foully undermined later by some sort of worm. In an effort to get at the root of matter with regard to the pigweed, I got at the root of the corn.

Out of fifty cents worth of really good sweet pea seed, I find that the small stakes placed at the end of the row are still there. I did not have to buy wire for supports. I have some California mopey and nearly two marigolds. Last week we had two radishes and may get another later on.

I have for sale, one hoe, one rake, one digging fork, one spunking can, a small bunch of alfalfa, and some type written notes gathered from my neighbors on the matter of prairie gardening. Next year I shall look for fish, and let the merry pigweeds pigweed all they jolly well please.

—By Our Horticultural Expert.

Mrs. R. Black and daughter, of Bushaw, are visiting with Mr. and Mrs. Douglas McNair.

Mrs. A. C. Godard returned on Saturday last after spending the past three weeks with her mother at Medicine Hat.

The regular meeting of the Women's Guild of St. Monica's Church, will be held at the home of Mrs. J. P. Webster, on Thursday afternoon, Sept. 18th. Mrs. Andrew Common will be the hostess.

The new election act of the province has been gazetted and is now in effect. Its first use will be in the Edmonton by-election shortly to fill the vacancy created by the elevation of Hon. J. R. Boyle to the bench.

A party of 51 Australian boys who have been touring Canada were entertained in Edmonton over the week-end. The party was carried from Calgary to Edmonton over the Canadian National Railways in two all-steel cars, and were on Saturday a northbound train, which stopped for ten minutes at Mirror.

Approximately 60 per cent, or 1,252,604 of the population of Western Canada live on occupied farms. The balance, 474,516 live in its 20 cities and towns of over 2,500 and 228,962 in 3,309 small towns and villages of 2,500 or under.

The work of re-balancing the main line of the Canadian Pacific between Montreal and Toronto (the Lake Ontario shore line) has just been completed. Nearly 2,000,000 tons of crushed rock, or about 35,000 carloads, were used in this operation. Officials state that the roadbed is now as excellent as it can be made and second to none in the world.

Successful strawberry culture 300 miles north of the international boundary has been proven possible by R. A. Gordon, of Edmonton, Alta. One hundred plants brought from Ontario wintered well, blossomed heavily and produced a prolific crop of well-formed, fine-flavored fruit with rich color and flavor. Mr. Gordon has likewise had much success with cherries, wild plums and crab apples.

## Organ for Sale

In splendid condition. Will sell for \$50.00; \$15.00 down and balance on terms. For further information apply at The Journal office.

## Tenders for Coal

Tenders will be received up to Friday, October 10th, 1924, for the supply of coal at the school. Prices to be for school and to be delivered as required throughout the season. The lowest or any tender not necessarily accepted. For further particulars apply at Secretary's office.
